## Office Action Summary

Application No.

09/931,336

Applicant(s)

COWAN, RANDY G.

Examiner

Mark T Henderson

Art Unit

3722

-- The MAILING DATE of this communication appears on the cover sheet with the corresponding address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 02 September 2003.  
2a) ☒ This action is FINAL. 2b) ☐ This action is non-final.  
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

- 4) ☒ Claim(s) 1-10 and 26-34 is/are pending in the application.  
4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.  
5) ☒ Claim(s) 26 is/are allowed.  
6) ☒ Claim(s) 1-7, 9 and 31-33 is/are rejected.  
7) ☒ Claim(s) 8, 10, 27-30 and 34 is/are objected to.  
8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

### Application Papers

- 9) ☐ The specification is objected to by the Examiner.  
10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).  
11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).  
a) ☐ All b) ☐ Some \* c) ☐ None of:  
1. ☐ Certified copies of the priority documents have been received.  
2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.  
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).  
\* See the attached detailed Office action for a list of the certified copies not received.

### Attachment(s)

- 1) ☒ Notice of References Cited (PTO-892)  
2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)  
3) ☐ Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08)  
Paper No(s)/Mail Date \_\_\_\_\_.  
4) ☐ Interview Summary (PTO-413)  
Paper No(s)/Mail Date \_\_\_\_\_.  
5) ☐ Notice of Informal Patent Application (PTO-152)  
6) ☐ Other: \_\_\_\_\_.

Art Unit: 3722

## **DETAILED ACTION**

### **Faxing of Responses to Office Actions**

In order to reduce pendency and avoid potential delays, TC 3700 is encouraging FAXing of responses to Office Actions directly into the Group at (703)872-9302 (Official) and (703)872-9303 (for After Finals). This practice may be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into TC 3700 will be promptly forwarded to the examiner.

1. Claim 1 has been amended for further examination. Claims 11-25 have been canceled. Claims 29-34 have been added.

Art Unit: 3722

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 30-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is not understood what direction is considered “forward” and “rearward”.

Applicant must make the direction and position relative to the structure or an axis (X-axis or Y-axis). Are “forward” and “rearward” relative to the edges of the label structure, or relative to a front layer and a back layer? Please clarify.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3722

3. Claims 1-7, 9, and 31-33 are finally rejected under 35 U.S.C. 102(b) as being anticipated by Rankin et al (6,447,862).

Rankin et al discloses in Fig. 1-3, a label structure comprising: a front surface (F) and a back surface (B); a first axis (26) extending parallel to the longitudinal extent of a liner (22); the label structure having a first rearward side (A) and a second forward side (B) parallel to the first axis (26); the label structure comprising a base panel (12) for affixing to a surface, having a front face (12A) and a back face (12B), wherein the back face (12B) has applied adhesive (28); a first leaflet or folded panel (16d) positioned adjacent the front face (12A) of the base panel (12), having a first fold (21a) parallel with the first axis (26) and positioned toward the first side (A) and further defining a first fold axis (as seen in Fig. 2); wherein the first fold divides; a second leaflet or second folded panel (16e) positioned forward (at least at the fold) and rearwardly in the X-axis of the first leaflet such that at least a portion or leaf (16n) of the first leaflet is positioned between the second leaflet and the base panel and further defining a second fold axis (seen in Fig. 2), wherein the second leaflet has a second fold (21b), transversely positioned toward the second side relative to the position of the first fold; wherein the first leaflet does not extend forwardly of the second leaflet at its fold line in the X-axis; and a transparent laminating layer (18) overlying and forwardly directed in a Y-axis to the base panel, the first leaflet and the second leaflet, wherein the laminating layer has a back face (18c) adhered (by adhesive 24) to a portion of the base panel; wherein the laminating layer is adhered (not directly adhered) to a portion of the first and second leaflet (wherein the second leaflet is attached to the first leaflet); and further wherein

Art Unit: 3722

the first and second folded panel are each divided into a pair of leaves, each of the leaves having an inner and an outer page face.

*Allowable Subject Matter*

4. Claim 26 is allowed.

5. Claims 8, 10, 27-30 and 34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The following is a statement of reasons for the indication of allowable subject matter: No prior art of record discloses a label system comprising: a liner; a label structure; a first leaflet having inner page faces; a second leaflet having inner and outer page faces which are adapted for permitting viewing of indicia, and being positioned forward of the first leaflet such that the first leaflet is positioned between the second leaflet and the base panel; and a laminating layer having front and back faces, wherein the back face is adhered to a portion of the first leaflet and a portion

Art Unit: 3722

of the second leaflet, and wherein the laminating layer is adhered to a portion of the outer face of the front second leaf of the second folded panel of the second leaflet; and including all of the other limitations of the independent claim.

### ***Prior Art References***

The prior art references listed in the attached PTO-892, but not used in a rejection of the claims, are cited for (their/its) structure. McClure et al disclose in Fig. 31, a label comprising two leaflets which are positioned on top of one another.

### ***Response to Arguments***

7. Applicant's arguments filed on September 9, 2003 have been fully considered but they are not persuasive.

In regards to Applicant's arguments that the amended claims now clarify that the "second leaflet is located closer to the front surface of the label structure than the first", the examiner submits that applicant's amendment does not clarify direction or position. "Front" and "back" is

Art Unit: 3722

not necessarily the same as “forward” and “rearward”. Since applicant has not defined or clarified these terms in the specification, the examiner has interpreted these terms in their broadest sense.

In regards to applicant’s argument that the Rankin et al reference does not disclose wherein the back face of the laminating layer is adhered to a portion of the first leaflet and a portion of the second leaflet, the examiner submits that Rankin et al does indeed disclose this limitation. Rankin et al discloses in Fig. 3, a first leaflet (16d) which is directly adhered to the lamination layer (18), and further wherein the second leaflet is indirectly adhered to the laminating layer via the first leaflet from which it is attached. Applicant may wish to amend the claims to state “wherein both leaflets are directly adhered to the laminating layer”.

### ***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 3722

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

#### **Contact Information**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark T. Henderson whose telephone number is (703)305-0189. The examiner can be reached on Monday - Friday from 7:30 AM to 3:45 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner supervisor, A. L. Wellington, can be reached on (703) 308-2159. The fax number for TC 3700 is (703)-872-9302. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the TC 3700 receptionist whose telephone number is (703)308-1148.
